

Composed of plant fibers and natural sanitizing oils and essences, it has a very high absorbency (up to three times its weight). It does not allow liquids to reach the bottom of the tray, thus leaving it always clean and dry. Furthermore, thanks to the high ammonia absorption capacity, the odor of pee is neutralized in a short time.

Modes of use

- Place a layer of about 3 cm of litter on a hygienic box.
- The shavings, in contact with liquid substances, crumble and settle on the bottom of the box.
- Only dry and clean litter will always remain on the surface.
- It will therefore be sufficient to remove only the solid excrements to maintain hygiene and allow a long life.

Encoding	
Trademark	Minou Pet
Item code	LTMIN04V-192P
EAN code	8054726041207
TARIC code	44013100

Characteristics	
Raw material	Wood fibres with natural oils and essences
Diameter	Not applicable
Granulometry	Granular
Colour	Wood
Scenting	Natural wood scent
Tipology	Absorbent
Material humidity	6-10%
Liquid absorption	180-300%
Average yield	6-20 days (1 medium-sized cat)
Usage	Ideal for small animals (cats and rodents)
Notes	Low dust

Sales unit	
Description	Paper bag (PAP22)
Net/gross weight	Variable / Variable

Standard palletizing	
Net/gross weight	Variable / Variable
Measures (L/W/H)	cm 120 x cm 80 x cm 100 ca.
No. pieces per layer	no. 24 bags in no. 6 packages
No. layers per pallet	no. 8 layers
No. pieces per pallet	no. 192 bags in no. 48 packages
